

## Environmental Policy

Fabris Inc. is committed to minimizing the environmental impact within its facility and the surrounding community. Fabris Inc. adheres to all the relevant environmental policies and regulations set by environment legislation.

In pursuit of excellence towards protecting the environment, Fabris Inc. routinely engages third party experts to assess the environmental factors both inside and outside the facility. Fabris Inc. also actively works toward the reduction of waste via: recycling of liquid waste, minimizing waste through recycling, efficient use of water and energy and the use of biodegradable chemicals.

Commitment to the environmental policies and regulations must form an integral part of this organization. This will only be realized with every Team Member's full commitment and cooperation
